Personal Use of Company Owned Vehicle

The IRS requires employers to provide certain information on their tax return with respect to the **vehicles provided to employees**. This information is also used to calculate the amount of the **fringe benefits** to be included in the employee's W-2 income. The IRS generally requires that written records be maintained to document the business use of vehicles. Since company policy requires employees to maintain detailed records, please provide answers to the following questions. If you were provided with, and used, more than one vehicle during the year, you need to prepare a separate statement for each vehicle.

The completed form must be returned to us **IMMEDIATELY**.
